

Hope Focused Marriage Enrichment Program

About the Program

“Hope Focused Marriage Enrichment” is a four week program that was developed by Dr. Everett Worthington, Ph.D. “Hope Focused Marriage Enrichment” has been extensively researched and has been shown to be one of the most effective programs available for strengthening marriages.

“Hope Focused Marriage Enrichment” is not marriage counseling but it does help couples resolve problems.

This enrichment will help you:

- Develop and enhance a vision for your marriage;
- Communicate effectively;
- Enhance the intimacy in your marriage;
- Deepen love for each other, have greater faith in each other and will support you as you work hard on your marriage.

What Makes up the Program

This program of four 1½ hour meetings with a trained consultant will build on the strengths that you have in your marriage. The enrichment program will also provide you with communication principles and skills that will enable you and your spouse to have greater closeness in your marriage for years to come.

All conversations are kept private and confidential.
